

# FOR MORE AUTOMATION

UPGRADE NOW!

60+

NEW  
FEATURES

## DentalCAD® 3.2 Elefsina at a glance

New features, more automation  
and seamless integration

- **Preparation margin repair tool** enables you to make the most out of imperfect intraoral scans: fix margins to get an acceptable result despite artifacts or holes in the scan
- Save time with **Auto Articulator** for automatic dynamic occlusion\*
- **Integration of compact milling machines:** select your preferred block and start production seamlessly from within your CAD software\*
- **Switch** tooth libraries while **keeping previous setup**

\*Requires add-on module

Elevated *Smile Creator* for better visualization  
and pre-operative treatment planning

- Design smiles **with virtual gingiva** for superior outcomes
- Design smiles based on patients' **natural teeth**
- Improved 3D-to-photo alignment: **adjust 3D view to match rendering to the camera's focal length**

## Bite Splint Module offers more design speed

- More **automation** in bite splint design
- Design **bite splints for both arches simultaneously**

## Full Denture Module improved

- **Copy Denture:** Instead of relining an old denture, **rapidly and inexpensively produce a new one**
- Design **dentures on ball attachments**
- Add-on for the **Ivotion™ Denture System** now available\*

\*Ivotion library purchase from Ivoclar required

## iTero-exocad Connector™ redefines seamless workflows

- Lab/doctor collaboration: **doctors can now share external case-related files** (images, videos and X-rays) via MyiTero™ portal
- New **bi-directional case communication** lets you share designs in 3D
- **Validate margins** with iTero intraoral camera images and visualization of tooth structure with iTero NIRI images

## New beta feature: post and core\*

- Design **post and core** restorations
- A **crown matching the core** can then be **directly designed**

\*Available upon request for beta testers

**Get the full highlights from your reseller.**
