Introducing SmileGuard™ Resin

For comfortable, durable,
same-day dental bite splints

Desktop Health™

2+

Years in Development

1+

Year Clinical Success

“This resin has made a huge difference to the way we provide clear splints.”

Dr. Patrik Zachrisson

Professor of Digital Dentistry, Karolinska Institute
International Digital Dental Academy
Lab and Practice Owner

Combat with Strength + Comfort

A customized fit with high impact resistance

- ✓ Temporomandibular Disorder
- ✓ Grinding
- ✓ Clenching
- ✓ Abrasions

This unique and proven formulation provides **optimal strength & shape retention** (resistance to deformation) for durable protection and a comfortable, perfect fit.

“SmileGuard resin prints **quick** and **clean** with a **beautiful finish**”⁴

- ✓ Fast to process
- ✓ Easy to polish
- ✓ Easy to place

⁴. Case and depth dependent, testing on file, 2022; beta tester quote from Dr. Meredith Gantos, Gantos Dental Group, 2022

For use with the Desktop Health **high-precision digital workflow**

Protect your patients by using SmileGuard resin for dental splints with the most bite.
